

## Advanced iPad Flying

The iPad is a powerful tool in the cockpit and has become the electronic flight bag (EFB) of choice for pilots, conveniently displaying charts, navigation data and in-flight weather. This seminar will explore advanced topics relating to flying with the iPad to help you maximize its utility in the airplane. Learn how to get more from your iPad with hidden settings and features; Complete iPad legal briefing, including AC 120-76B and FAA approvals Real world iPad preflight checklist High-tech iPad accessories In-flight weather on the iPad (ADS-B) ForeFlight Mobile tips and tricks Resolving iPad and application problems

**Directions:** Take I-275 to exit 63 (Eastgate). Go East on S.R. 32 for approximately 3 miles. Follow signs to Clermont County Airport. Seminar held on 2nd floor of Sporty's building.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
